TRADITIONAL ESPRESSO MACHINES

MODBAR POUR-OVER SYSTEM (NO ESPRESSO, NO STEAM)

Introducing the ModBar Pour-Over System – the ultimate solution to expand your coffee menu and boost your margins with by-the-cup, automated offerings. Enjoy complete control over your brews with both manual and programmed pulse recipes, all at your fingertips. Whether you prefer to brew by hand or utilize up to 15 pre-programmed recipes, the ModBar Pour-Over System makes it easy to deliver the perfect cup every time. Adjust the flow rate to suit your specific brew method and extraction preferences, giving you the flexibility to craft each coffee just the way you like it.

MODBAR STEAM SYSTEM

The ModBar Steam System is more than just a steam station. It combines sleek, modern aesthetics with unmatched power and control, offering your café an efficient, elegant solution for drink preparation. Let your customers experience the full artistry of their beverages, from the precision espresso pull to the beautiful rosetta pour. Whether you're recreating the feel of a traditional espresso machine with one or two steam taps beside your ModBar Espresso or designing dedicated steaming stations to enhance workflow and throughput, the ModBar Steam System adapts to meet your café’s specific needs.
