TRADITIONAL ESPRESSO MACHINES

SLAYER ESPRESSO 1 GROUP

The Ultimate Coffee Professional's Tool

This machine provides flow rate control via patented needle-valve technology allowing the barista to extract espresso that is unparalleled in flavor and mouthfeel.

It comes equipped with an independent brew boiler per group for impeccable temperature stability and a dedicated boiler for unlimited steam capacity. The Slayer Espresso is unmatched in innovation and capabilities—it is the dream machine.

designed & crafted in seattle usa

Patented Needle Valve

Grind finer and perfect your flavor profile with a restricted water flow rate that produces espresso unlike any other machine

Brew Group Actuators

3-position actuator allows you to shift between flow rates effortlessly—this grouphead is rated at 1 million cycles

Incredible Temperature Stability

Supplemental Pre-Heat Tank means you've got a near-infinite supply of Temperature Stable water and steam

Independent Brew & Steam Tanks

Dedicated tanks at each group, and a dedicated tank for steam maintain optimum temperature stability

Commercial Grouphead

Equipped with a resettable and life-time shot counter, this grouphead is rated at 1 million cycles

Intentional Design

Keep an eye on your extraction with the conveniently located shot mirror, stay engaged with customers over the low profile of the machine, and enjoy the brewing process with ergonomic features

Handcrafted & Customizable

Built with both form and function in mind—the choice is yours on wood type, panel color, metal finishes, cup rails

Product Description Espresso 2 Group

Slayer's flagship product. Uncompromisingly manual and completely focused on extraction. It is the only espresso machine that lets you precisely and consistently control the flow rate of water allowing you to grind coffee finer and develop incredible flavor profiles.
