EGRO FULLY AUTOMATIC MACHINE NEXT PURE

Your next coffee is not that far

Egrot Next is the new frontier in fully automatic coffee machines. Featuring stylish ergonomic design, Egrot Next is intuitive, easy to use and to clean. It guarantees top-quality results for all types of coffee, milk and powder-based drinks. Recommended for locations with an average daily consumption of 300 coffee cups, Egrot Next has been designed mainly for use in hotels, offices, fast-food restaurants, convenience stores, service stations, cafés and self-service facilities, and is available in 3 versions: Pure Coffee, Quick Milk, and NMS+

Swiss Coffee Technology

Top-quality results at every cup, thanks to a stainless steel brewing group equipped with Self-Adjusting Grinder technology and separate boilers for coffee and steam

NMS+

Adjust the frothing level and milk temperature for each beverage. And with the NMS+ version, you can personalise every recipe with cold milk foam thanks to the CMF system

10" HD Touchscreen

Swipe, tap and scroll with ease through the menu. It's as easy as using your smartphone, with all preferences and drink selections at your fingertips.

Easy Switch

Customise different menus and easily switch between self-service mode for breakfast and barista mode for lunch or dinner

Built to last

Stainless steel brewing group and high-value components come together in a robust design for high performance and maximum durability.

Total flexibility for every business

Modular portfolio, flexibility, add-ons, fridges, optional features and payment systems to create a bespoke setup for every instance.

Easy to clean

Daily cleaning program and rinsing cycles.

MAHLKÖNIG ESPRESSO GRINDER E65S GBW

Espresso Grinder

UNMATCHED CONTROL

The E65S GbW is the next espresso grinding revolution. It is the first espresso grinder ever, that features Grind-by-Weight technology for real-time scale controlled dosing as well as Mahlkönig's pioneering patented Disc Distance Detection that lets you set the degree of fineness based on the actual distance between the burrs. Keeping your perfect individual grinder settings has never been so easy, yet so precise.

The integrated Portafilter Detection recognizes the portafilter automatically, selects the corresponding grinding preset and starts the grinding process. This way, the barista gains valuable time for the preparation. Furthermore, the easy application reduces training requirements for the staff while dosing mistakes get prevented. Experience unmatched control over your espresso quality.

MILK

STERILGARDA MILK 3,5% FAT

Whole Milk

UHT Microfiltered, 1000 ml, Fat 3,6 g. A milk that is good from its origin; it is only from Italian selected farms that undergo daily tests all along the production chain. Its taste is rich and natural thanks to a microfiltration process through which the microbiological impurities are removed without reducing the nutritional value of milk. The milk is then heat-treated in a delicate way in order to keep its natural taste.
