

“ Why choose AluSense ”

AluSense was the first company worldwide to create an aluminium capsule compatible with Nespresso Original machines. This has been our core business ever since. Today, we have established a worldwide presence in more than 80 countries

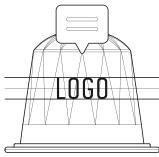

Operational Excellence

- ◇ In-house engineering and continuous R&D resulted in our mono-material capsule, offering you increased performance, an exclusive Dome shape and compatibility with all Nespresso Original machines (SGS, Hansecontrol certified).
- ◇ With full control of our supply chain, we guarantee the shortest lead times in the market. Thanks to our vast stock, we always have your requested volume available today! Our customers are able to save up to 30% on transportation cost because of our efficient palletization.
- ◇ Our production is certified BRC and ISO (ISO 9001:2015, ISO 14001:2015, ISO 45001:2018). Our capsule is food-safe.

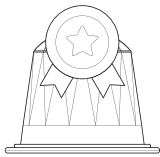

AluSense is more than just a supplier - we want to be your long term partner!

Service Excellence

- ☞ We can offer in-market launch options with one of our co-packing partners while you are waiting for your filling line to be delivered.
- ☞ With our “Capsule Knowledge Center”, we can assist you with all technical information in order to successfully launch your aluminium capsule project.
- ☞ Choosing AluSense means choosing the best service. Our aim is to offer all-in solutions with the help of our sales and customer service teams.
- ☞ We believe in local presence, our sales teams and agents are travelling towards you and we are participating in numerous trade shows all over the world

Product Excellence

- ☞ AluSense is the only supplier with more than 10 years of experience in working with aluminum capsules, which enables us to guarantee a worry-free product of the highest quality.
- ☞ We produce mono-material capsules, meaning our capsules are made of 100% aluminum. This makes our capsule less complex, avoiding any issues during production and the brewing process.
- ☞ AluSense offers 16 premium colors. AluSense offers the opportunity to customize your capsules with your logo or design.
