- Bags are made of a high-strength PE with a barrier layer
- Affordable and reusable
- Protects against mold growth and insect infestation
- Retains quality of stored grains
- Pesticide-free, environment-friendly solution
- Fit for storage of organic products

GRAINPRO® HERMETIC BAG FARM™ ZIPPER

- 2 track PE zipper closing mechanism

GRAINPRO® HERMETIC BAG FARM™ ZIPPER

SIZE	Approximate Capacity, kg (lbs) <i>Based on maize</i>	Dimensions, (L x W), cm (inch)
Medium	50 (110)	105 x 60 (41 x 24)
Large	90 (198)	105 x 85 (41 x 34)

The GrainPro® Hermetic Bag Farm™ is a low-cost, hermetic bag lining solution developed primarily for smallholder farmers. The GrainPro® Hermetic Bag Farm™ is tested for farm conditions and can be relied upon to safely preserve dried agricultural commodities such as maize, cassava, wheat, rice paddy, and soybean. It's made from high-strength polyethylene (PE) plastic with a proprietary barrier layer with sufficiently low permeability to prevent the exchange of air and the absorption of moisture.

It effectively inhibits aflatoxin production and eliminates insect infestation embedded within the commodities, without the use of harmful chemicals.

GRAINPRO® HERMETIC BAG FARM™ TWIST & TIE

- Twist & tie closing mechanism

GRAINPRO® HERMETIC BAG FARM™ TWIST & TIE

SIZE	Approximate Capacity, kg (lbs) <i>Based on wheat</i>	Dimensions, (L x W), cm (inch)
Small	25 (55)	95 x 50 (37 x 20)
Medium	50 (110)	110 x 65 (43 x 26)
Large	90 (198)	130 x 75 (51 x 30)

- Recommended for a variety of dry agricultural commodities: paddy, maize, wheat, pulse grains, sorghum, barley
- Used as an inner liner for jute or PP bags
- Quality of stored commodities is preserved

NOT FOR COFFEE AND COCOA

Disclaimer: The approximate capacity provided above is based on our computation. **Capacity variance based on actual commodity stored will apply.**
